

## **TECHNICAL INFO**

## Anti Seize

Art.: 03.0101.1970 Aerosol can 500 ml

Anti Seize is a copper lubricant, resistant to high temperatures. On metals it forms a tightly sealed protective layer, which does not give way and cannot be burnt off. It simplifies assembly and disassembly and prevents parts from seizing.

Base:	A mixture of calcium complex soap and clay, enriched with a few additives and containing a high percentage of copper powder
Density:	± 700 kg/m³
Consistency:	Pasty
Viscosity:	1-2 (NLGI)
Flash point:	< 0°C
Pressure resistance:	Very good
Temperature resistance:	-30°C to +150°C
Peak temperature resistance:	+1100°C
Drop point:	± 250°C
Water resistance:	Very good. Excellent grease for humid conditions.
Acid resistance:	Good
Corrosion resistance:	Very good
Mechanical stability:	Good
Penetration ability:	Good
Percentage of greasing agent:	± 30%
Application conditions:	+10C to +40°C
Type of surface:	All kind of metals. Do not use with ABS, ASR, ESP, etc.
Surface preparation:	The surface must be clean, dry, free of grease and non-corroded. Clean surfaces with Innotec Multisol, Innotec Ultra Clean or Innotec Power Clean.
Application method:	Shake spray can well before use. Apply the product to the part for lubrication either with the spray tube or with the standard nozzle, depending on the application. Leave a short time to evaporate. After use, invert can and spray until clear to clean the nozzle.
Cleaning of materials used:	With Innotec Multisol or Innotec Power Clean
Cleaning of hands:	With Innotec Safe Hand Clean Plus and water

Shelf life:	2 years in original, unopened packaging
Storage conditions:	Store cool and dry
Type of batchcode:	F
EAN Code:	5400563014868

This technical info sheet replaces all previous versions.

All information is supplied without obligation and based on our knowledge and experience with the product under normal conditions. In practice, the information supplied can in no way replace the tests that need to be performed before first use of the product. only prior testing of the product can prove whether the product is indeed suitable for the intended application (or not). Thus, we cannot accept any responsibility in case our products are not used in compliance with the advices given.

If the product should not meet the quality requirements, we will only reimburse up to a maximum of the purchase price of the product. We accept no responsibility whatsoever and shall under no circumstances be liable for damage or consequential loss arising from the use of the product.

For information concerning safe use and storage, please refer to the safety data sheet of the product concerned.
