

TECHNICAL INFO

Quick Shine Polish 500 ml

Art.: 04.3182.9999

500 ml

Quick Shine Polish is a unique polish for just about every type of modern lacquer. The product consists of 100% protective ingredients and contains no abrasives or other cleaners. Due to this unique composition Quick Shine Polish offers perfect care and protection for all clean, lacquered surfaces.

Base:	Mixture of wax, silicone oil and solvents
Density:	975 kg/m ³
Consistency:	Liquid
Viscosity:	600 mPa.s (at 20°C)
Solvents:	White spirit
Flash point:	47°C
Additions:	Silicone oil
Percentage of wax:	3% to 5%
Application conditions:	+5°C to +30°C. Not in sunlight.
Type of surface:	The most common paint systems. Avoid contact with unprimed plastics. After contact rinse immediately with plenty of water and a sponge.
Surface preparation:	The surface must be clean, dry and free of grease. Wash the surface with a suitable shampoo.
Application method:	Shake the bottle before use. <u>Method 1:</u> Apply Quick Shine Polish to a clean, dry and soft cloth (preferably an Innotec Multi Wipe) or to an InnoQuip Spot Handpad and rub into the surface you want to treat using circular movements. Allow the surface to dry and polish up with a clean, dry Innotec Multi Wipe or Clean & Shine Towel . Do not apply pressure. <u>Method 2:</u> Dissolve a quantity of Quick Shine Polish in water and apply with a sponge or pour over the surface. Then rinse with plenty of water and chamois until dry.
Cleaning of materials used:	With water
Cleaning of hands:	With Innotec Safe Hand Clean Plus and water
Shelf life:	12 months in original, unopened packaging
Storage conditions:	Store cool and dry
Type of batchcode:	F
Other details:	OEM approved
EAN Code:	5400563024621

This technical info sheet replaces all previous versions.

All information is supplied without obligation and based on our knowledge and experience with the product under normal conditions. In practice, the information supplied can in no way replace the tests that need to be performed before first use of the product. Only prior testing of the product can prove whether the product is indeed suitable for the intended application (or not). Thus, we cannot accept any responsibility in case our products are not used in compliance with the advices given.

If the product should not meet the quality requirements, we will only reimburse up to a maximum of the purchase price of the product. We accept no responsibility whatsoever and shall under no circumstances be liable for damage or consequential loss arising from the use of the product.

For information concerning safe use and storage, please refer to the safety data sheet of the product concerned.
