

Door-Seal Nozzle

Art.: 90.2934.9999

The unique Door Seal Nozzle is a universally applicable solution to restore or renew OEM door seams after or during damage repair. The nozzle can be perfectly cut to the right size and is therefore suitable for any type of flat seam (door, sliding door, boot lid etc.) The advantage of liquid sealants is that they seal the seams perfectly. This in contrast to sealing tape on roll. So Door Seal Nozzle is not only a cosmetic, but also a technically correct solution.

EAN Code: 5400563033395

This technical info sheet replaces all previous versions.

All information is supplied without obligation and based on our knowledge and experience with the product under normal conditions. In practice, the information supplied can in no way replace the tests that need to be performed before first use of the product. Only prior testing of the product can prove whether the product is indeed suitable for the intended application (or not). Thus, we cannot accept any responsibility in case our products are not used in compliance with the advices given.

If the product should not meet the quality requirements, we will only reimburse up to a maximum of the purchase price of the product. We accept no responsibility whatsoever and shall under no circumstances be liable for damage or consequential loss arising from the use of the product.

For information concerning safe use and storage, please refer to the safety data sheet of the product concerned.
