

## PRODUCT INFO

# Temperature Indicator

Art.: 95.3134.9999

Reclosable plastic bag 100 pieces

Temperature indication sticker which is used during the curing process of [Liquid Glass](#). This sticker is applied to the flooded surface for control purposes during curing. It provides reliable information whether the required temperature is achieved or not. Temperatures is indicated both in °C and °F. The indication is irreversible and the highest measured temperature remains visible for a longer time.
