

Masking Plate

Art.: 05.1340.9999

The Innotec Masking Plate is part of the Innotec Alu Scratch Repair System and is a handy tool that can be used when spray-painting a wheel. The specially designed plate can be put between rim and tyre to protect the tyre quickly and efficiently against spraying mist.

Base:	PVC
Dimensions:	Thickness < 200µ (10% tolerance)
Hardness:	1,36 g/cm ³
Temperature resistance:	+55°C
Solvent resistance:	Very good
Application method:	Push with the right radius between tyre and rim
Cleaning of materials used:	With Innotec Repaplast Cleaner Antistatic
EAN Code:	5400563026113

This technical info sheet replaces all previous versions.

All information is supplied without obligation and based on our knowledge and experience with the product under normal conditions. In practice, the information supplied can in no way replace the tests that need to be performed before first use of the product. Only prior testing of the product can prove whether the product is indeed suitable for the intended application (or not). Thus, we cannot accept any responsibility in case our products are not used in compliance with the advices given.

If the product should not meet the quality requirements, we will only reimburse up to a maximum of the purchase price of the product. We accept no responsibility whatsoever and shall under no circumstances be liable for damage or consequential loss arising from the use of the product.

For information concerning safe use and storage, please refer to the safety data sheet of the product concerned.
