

## Anti-Vibration Plates Flex

Art.: 05.3375.0000

24 pieces

Anti-Vibration Plates are self-adhesive insulation plates, which prevent unpleasant and even harmful resonance in a large range of applications.

Anti-Vibration Plates (Flex) are a smooth and flexible rubber sheet; this heavy-duty finish has been developed to absorb as much vibration as possible.

Base:	Acoustic damping material made from elastomers and with a powerful acrylic layer of glue
Density:	$\pm 4,2 \text{ kg/m}^2$
Dimensions:	22,5 cm x 50 cm
Hardness:	$\pm 85$ (Shore A)
Adhesive strength:	$15 \text{ N/cm}^2$
Temperature resistance:	$-30^\circ\text{C}$ to $+120^\circ\text{C}$
Peak temperature resistance:	$+150^\circ\text{C}$
Water resistance:	Good
Flexibility:	Excellent
Tests:	Good fire resistance according to US standard FMVSS 302 class SE/NBR
Application conditions:	$+15^\circ\text{C}$ to $+35^\circ\text{C}$
Type of surface:	Metal, aluminium, plastic, painted surfaces, etc.
Surface preparation:	The surface must be clean, dry and free of grease. Clean surfaces with Innotec <a href="#">Multisol</a> or Innotec <a href="#">Seal and Bond Remover</a> .
Application method:	Decide and cut the correct size. Remove the protective film and press onto the surface, spreading from the middle to the outer edges. Do not leave any air bubbles.
Correction time:	Short time before pressing down
Paintability:	Sprayable with almost all modern paint systems
Cleaning of materials used:	With Innotec <a href="#">Multisol</a>
Cleaning of hands:	With Innotec <a href="#">Safe Hand Clean Plus</a> and water
Shelf life:	12 months in original, unopened packaging
Storage conditions:	Store cool and dry, at a temperature between $+5^\circ\text{C}$ and $20^\circ\text{C}$
Type of batchcode:	F
Other details:	OEM approved

EAN Code: 5400563027196

This technical info sheet replaces all previous versions.

All information is supplied without obligation and based on our knowledge and experience with the product under normal conditions. In practice, the information supplied can in no way replace the tests that need to be performed before first use of the product. Only prior testing of the product can prove whether the product is indeed suitable for the intended application (or not). Thus, we cannot accept any responsibility in case our products are not used in compliance with the advices given.

If the product should not meet the quality requirements, we will only reimburse up to a maximum of the purchase price of the product. We accept no responsibility whatsoever and shall under no circumstances be liable for damage or consequential loss arising from the use of the product.

For information concerning safe use and storage, please refer to the safety data sheet of the product concerned.
